

Social services provided by the Catholic Eparchy of Keren

Spreading the Gospel is the primary mandate of the Church. In doing so, the Catholic Church goes around the world spreading the good news.

Serving humanity's spiritual needs being the primary mission, the Catholic Church also recognizes people's daily needs in matters of health, food, and social justice. Worldwide, the Catholic Church **has been**, and **is**

- Number one health care deliverer in the world
- One of the major institutions in delivering relief aid
- Has been, and is at the forefront in the fight for social justice

As Jesus cared for the people fed them, cured their diseases, and treated them with compassion, so does the Church following the footsteps of Jesus.

The Catholic Church in **Eritrea** is no different. It has travelled through thick and thin with its people, the people of God.

**Here is a
pictorial presentation of some the
services provide by the catholic church**

Adult Education

Computer Education

The church, **all sons and daughters of God**, from all corners of the world make it possible for those who need our help to:

- Drink clean water
- Be able to read and write
- Get so many more social services

Thank you and GOD bless you!
